Dear Parents and Carers,

We are participating in a project with the Compass Multi-Academy Trust to see how Compass schools support students, families, and staff.

As part of this project, we are completing training about racial literacy with Hemisphere Education about racial literacy. To understand the training's impact, we are asking students to take a short survey about their experiences and sense of belonging.

- **Anonymous:** The survey is anonymous, and no one at the school will see individual responses.
- **Voluntary:** Taking the survey is optional, and pupils can choose whether to participate.
- **Timing:** The survey will be done during the school day on Tuesday, 18th November.

If you don't want your child to take the survey, please let the School Office know by **Monday, 17th November**.

The evaluation of this project will enable schools across the Compass Multi-Academy Trust to review their work with their communities.

Thank you for your support,
