

Sycamore Class Newsletter Autumn 1 2026

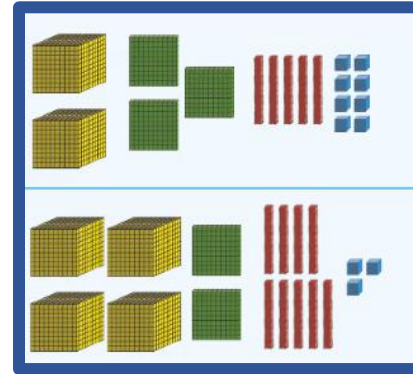

In **English** lessons this term, we will be reading non-fiction information about famous London landmarks. We will be using our facts to help us to read our whole class text "Katie in London"

In **Geography** lessons, we will be learning about rivers and dams. We will research facts about water in our landscape. We will also compare man made and natural landscapes.

Sycamore Class will have **PE** with their year group class. Each week. We will engage in fun, turn taking, parachute activities and interactive dance.

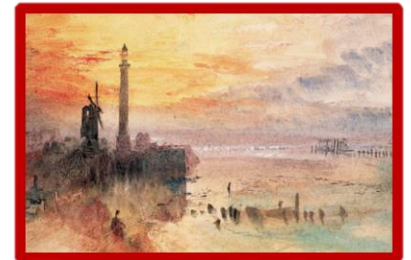

In **Mathematics** lessons this term, we will be using dienes and place value counters to show how three-digit, and four-digit numbers are partitioned and written. We will also be counting in lots of 2s, 3s, 5s, and 10s.

In **science** lessons, we will be studying animals including humans. We will be looking at bones! We will learn to name some human bones and compare them to animal skeletons. We will also learn about how muscles work and the importance of good nutrition.

In **Art** lessons, we will be exploring water colour painting and colour mixing. We will be painting landscape pictures of rivers, lakes and water.

In **RE** lessons this half term, we will be exploring how Hindus celebrate the festival of Diwali
